ADOS-2 Clinical Workshop

Course Description

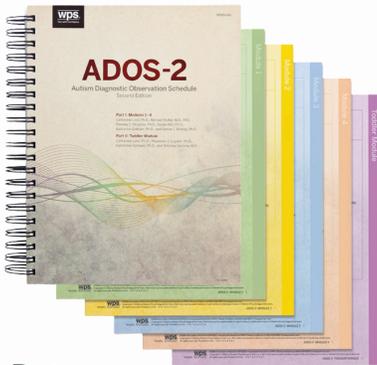

In just two days, learn the potential uses of the ADOS-2 as part of a diagnostic evaluation for autism. You'll have the opportunity to practice scoring while observing the instructor administer the ADOS-2 to a child with autism. The workshop focuses primarily on Modules 1 through 4, and attendees are given materials to study later to complete training in the Toddler Module.

Purpose

Autism Diagnostic Observation Schedule, Second Edition (ADOS®-2) administration and coding are highly standardized. Therefore, valid assessment requires a trained and clinically experienced examiner.

Intended Audience

This training is designed for RC SELPA member LEA professionals who are involved in the assessment, identification, and support of individuals with Autism Spectrum Disorder (ASD) and who require competency in administering the ADOS-2 as part of their professional role.

Date:
April 28-29, 2026

Time:
8:00am - 4:00pm

Location:
Riverside County SELPA
2935 Indian Ave.,
Riverside, CA 92571

Cost:
\$675.00
