

Riverside County SELPA Data Governance Meetings 2020 - 2021 Meeting Schedule

All meetings are scheduled from 8:30 a.m. – 10:30 a.m.

The changes in Special Education reporting continue to change practices and procedures in all parts of Special Education, from our understanding of how to write IEPs to the way in which we report those IEPs to CALPADS. This remains a dynamic environment and we are still experiencing changes in both SEIS and CALPADS that affect our understanding and submission processes. As with any major change, there are all different levels of understanding regarding the new practices necessary for reporting. We will work in the 2020/2021 school year to bring about full understanding for all.

Riverside County SELPA will again be holding Data Governance meetings, but the format will be different than before. Given the changing environment and needs, we will meet monthly via Zoom to discuss processes and procedures, any changes, and answer questions. This will take place in the first 2 hours scheduled. In the remaining time, data teams from each LEA should meet to discuss their particular data and to determine if there are any questions or processes that need to be changed.

<i>Date</i>	<i>Location</i>
	Virtual – Zoom until Further Notice
