

**Riverside County SELPA  
Mentoring & Answers for SEIS & CALPADS (MASC)  
Meeting Group  
2021 – 2022 Meeting Schedule**

**All meetings are scheduled from 1:30p.m. – 3:00 p.m. and will be held virtually.**

These MASC meetings are designed as an extra support for LEA SpEd data personnel who are new to their positions. There is much to learn with SEIS administration, CALPADS reporting, and the correct processes and procedures of Special Education.

This meeting is a supplement to the regularly scheduled SAAG and Data Governance meetings that convey the majority of timely information on these topics. The MASC meetings will help to fill in foundational understandings to better absorb the content in these other meetings. It will also offer an opportunity to ask questions and receive a slower paced, more thorough explanation in a small group setting.
