This training will explore the laws and regulations around special education transition from Part C (Early Intervention) to Part B (Preschool Special Education: the foundation upon which special education and related services rest). The focus of this training will explore the selection and use of appropriate assessment measures designed to assess a preschool child's development including cognition, language, motor, and play for both the initial assessment and the transition to kindergarten. Participants will critically examine the continuum of services and optimum preschool environments. Preschool special education teams will have the opportunity to discuss challenging cases to improve the transdisciplinary assessment process. Topics of cases will explore cultural considerations when assessing young children, how to determine delay versus disorder, and medical issues that may impact a child's development.

**Participants will:**
