Riverside County SELPA will be hosting TOT meetings with built in trainings for district staff responsible for SEIS trainings within their districts. All meetings are conducted simultaneously in person and via webinar so that participants can choose the best way to participate in each meeting. Each district will need to have (at minimum) 1–2 TOT trainers attending the meetings, depending on the size of the district. Riverside County SELPA will provide presentations and handouts as appropriate for participants to use for trainings in district. TOT members receive e-mail notifications regarding changes to the SEIS system, new features in SEIS, and problems discovered in SEIS with workarounds if any are available. If problems with data entry or IEP document completion are found in SEIS, TOT members will receive updates with training materials to help correct wrong practices. The 2018/19 and 2019/20 school years will have several changes occurring within SEIS and our CASEMIS reporting. The TOT group will be at the forefront of these changes.
